SELF ETCHING PRIMER

12 oz. cans - Case Pack: 6

Dupli-Color® Self-Etching Primer etches and primes bare metal in one step, making it ideal to use as the first step in all automotive priming projects and for use on spot repairs. A high-quality formulation allows for maximum adhesion under all types of automotive finishes on plastics, fiberglass, bare steel, aluminum and stainless steel surfaces.

- Features EZ Touch® Fan Spray Nozzle
- Superior etching ability on bare surfaces
- Perfect for spot repairs
- Maximum adhesion and corrosion resistance
- Dry to touch in 30 Minutes / Handle in 1 Hour
- Ideal for use on bare metal, aluminum, and fiberglass

Self-Etching Primer DAP1690 0-26916-94690-4

SANDABLE PRIMER

12 oz. cans - Case Pack: 6

Dupli-Color® Sandable Primer is an all-purpose, fast-drying primer that can be sanded to a smooth finish to help achieve topcoat uniformity. Great for smooth fill-in of surface cracks and imperfections and is effective on both painted and unpainted surfaces.

- Features EZ Touch® Fan Spray Nozzle
- Helps achieve top coat uniformity
- For use on pre-painted and unpainted surfaces
- Sands easily
- Dry to touch in 30 Minutes / Handle in 1 Hour
- Use on metal, wood, and fiberglass surfaces

PRIMER SEALER

12 oz. cans - Case Pack: 6

Dupli-Color® Primer Sealer creates a smooth uniform surface for final coating by completely sealing the primed surface. Provides maximum corrosion resistance and improves bonding of base colors on all metal, wood, and fiberglass surfaces.

- Features EZ Touch® Fan Spray Nozzle
- Provides maximum corrosion resistance
- Provides a smooth uniform surface for top coat
- Dry to touch in 30 Minutes / Handle in 1 Hour
- Use on metal, wood, and fiberglass

Primer Sealer DAP1699 0-26916-94699-7

ADHESION PROMOTER

11 oz. cans - Case Pack: 6

Dupli-Color® Adhesion Promoter improves adhesion of enamel and lacquer top coats to all surfaces, including plastic and chrome. Adhesion Promoter is an all-purpose clear primer ideal for both interior and exterior applications.

- Features EZ Touch® Fan Spray Nozzle
- Improves top coat adhesion to plastic and chrome
- Quick drying clear primer
- Dry to touch in 20 Minutes / Handle in 1 Hour
- Use on interior and exterior applications
- Ideal for use on all metal and plastic surfaces

GREASE AND WAX REMOVER

Prep-Wipe - Single Towelette - Case Pack: 12,
Prep-Spray - 11 oz. - Case Pack: 6
Quart - 32 oz. - Case Pack: 6,

Surface preparation is a critical step in any quality painting project. Dupli-Color® simplifies your painting preparation needs by offering a complete line of Grease & Wax removers, including: Prep-Wipe, Prep-Spray, and Grease & Wax Remover in bulk gallon and quart containers. Each product removes dirt, road tar, grease, wax and oil from any surface without leaving a film residue.

- The very first step in any paint project
- Removes grease and wax prior to painting
- Promotes maximum paint adhesion
- Each Prep-Wipe towelette measures 8.5 in. x 11 in.
- Dries quickly with no residue

PW100 - Prep Wipe Towelette 0-26916-2000-6

FEATURING

SCRATCH-SEAL™ CLEAR SEALER PEN

Scratch•Seal™ is an easy-to-use, high-quality, fast-drying, clear paint specially formulated to permanently seal any scratch. It prevents the scratch from getting worse and becoming an expensive repair until you are ready to fully repair it with touch-up paint. It goes on clear and dries clear - virtually invisible.

SFSS100 - Scratch•Seal™ Clear Sealer Pen 0-26916-01414-6

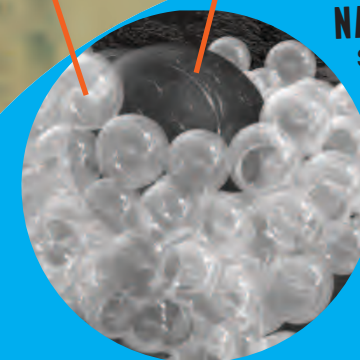

0.4oz. pens - Case Pack 6

- Permanently seals scratches & chips to prevent further rust & flaking
- Stop the damage before it becomes an expensive repair

**Unprotected vehicle
scratch after only
30 days!**

NANO Molecule Normal Molecule

NANO-MOLECULAR-FORMULA™ ADVANCE SEAL

Scratch•Seal's Nano-Molecular-Formula™ provides an advanced seal on any scratch! The revolutionary new clear coating uses an interlocking molecular structure to create a denser, more durable seal with increased adhesion. The nano-sized molecules fill the voids created by larger molecules in order to prevent water penetration and seal out moisture that cause rust. When dry, it forms an extra-protective shell over the scratch to prevent damage from nature's elements of UV rays, salt and moisture.

SCRATCH FIX 2IN1™

Keep late-model, domestic and import cars, trucks, vans and SUV's looking new longer with Dupli-Color® Scratch Fix 2in1™ Premium Touch-Up Paint. The two applicators in one (roller ball tip and taper-tip brush) provide precision and control to repair nicks, chips and scratches with ease. Dupli-Color® Scratch Fix 2in1™ is offered in a complete line of OEM Exact-Match colors for the perfect finish.

.5 oz tubes — Case pack: 12

- Industry leading touch-up paint technology
- Complete line of OEM exact-match colors
- Roller ball tip ideal for precision and control
- Taper-tip brush ideal for large coverage
- Dry to touch in 20 Minutes / Handle in 40 minutes
- Clear coat needed to match original factory finish

Paint Shop

PAINT SHOP® FINISH SYSTEM

Dupli-Color® Paint Shop® Finish System gives you everything you need to create a high-quality DIY finish-primer, color and clear. Paint Shop® is a high-quality lacquer system designed for automotive and motorcycle applications that is easy to apply, dries quickly and can be buffed to a brilliant smooth finish. Paint Shop® is a ready-to-spray system that requires no mixing or reducing, and with no re-coat window, additional coats can be applied at anytime.

32 oz. cans - Case Pack: 2

- Pre-reduced, ready-to-spray lacquer
- No mixing or reducing required
- Easy to apply and dries quickly
- No recoat window, reapply at any time
- Must be clear coated
- Wet sands easily
- Ideal for automotive exterior body projects

MATTE FINISH CLEAR

Matte your ride out or create custom highlights with Dupli-Color® Paint Shop® Matte Finish Clear Coat. This high grade matte clear features excellent sprayability, leveling and offers superior mar resistance. It's ready to spray and can be applied over any Paint Shop® color for the ultimate in versatility and customization.

PRISM MULTI-COLOR CLEAR AND METALLIC CLEAR

These Paint Shop® Mid-Coat Clears can be applied to any Paint Shop® Color Coat to create unique special effects.

- Prism Multi-Color Clear creates multi-colored effects from all angles depending on the light source
- Metallic Clear adds a brilliant pearl effect, as tiny metallic particles will appear to be suspended in the paint's finish

Engine Enamel

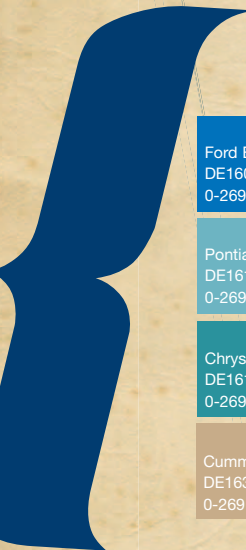

ENGINE ENAMEL WITH CERAMIC™

Dupli-Color® Engine Enamel contains Ceramic Resins for maximum heat dissipation and gloss retention. The resins offer protection from exposure to excessive heat and automotive fluids. Excellent for under-the-hood applications, Dupli-Color® Engine Enamel will perform to the most rigorous standards of racing, street rod, and vehicle restoration enthusiasts. This durable formula resists temperatures up to 500°F intermittently and produces a superior finish that will not blister, flake, crack or peel.

12 oz. cans - Case Pack: 6

- Features EZ Touch™ Conical Nozzle
- Maximum heat dissipation and high gloss retention
- Ceramic resins resist heat up to 500°F
- Dry to touch in 30 Minutes / Handle in 1 Hour
- Resistant to oil and other automotive fluids
- Will not blister, flake, crack, or peel
- For use on engine blocks and engine accessories

- Dry to touch in 30 Minutes / Handle in 1 Hour
- Use on auto accessories and recreational equipment

METALCAST™

Dupli-Color® Metalcast™ Anodized Color turns ordinary chrome pieces into a bright, transparent-colored metallic finish in an easy one-step process. Metalcast is a durable enamel finish that is oil, gas, and heat resistant to 500° F intermittently, making it ideal for interior, exterior, and high-heat applications under the hood. Specially formulated to work over properly prepared shiny, bare metal, and faux chrome-like surfaces.

Paint tip: Clear coat with DE1636 Engine Enamel Clear for added gloss and durability.

EFFEX™

Give non-metallic paint a brilliant glitter effect with Dupli-Color® Effex™. Available as a clear top coat which allows the base color it is applied over to shine through.

Effex is formulated with tiny, brilliant-metallic particles that change colors when exposed to various angles of light. Ideal for accessories like body molding, hood scoops, mirrors and spoilers.

- Features EZ Touch® Fan Spray Nozzle
- Brilliant glitter effect
- Tiny metallic prism flakes change color in light
- Easy to use and dries quickly
- Dry to touch in 20 Minutes / Handle in 1 Hour
- Ideal for body, molding, scoops, and mirrors

MIRAGE®

Dupli-Color® Mirage® Color System is a unique, color-shifting aerosol paint formulated to create multi-colored effects from all angles. As the light source and viewing angle changes, the color appears to change. Mirage is a quick-drying, UV-resistant formula that adheres well to steel, aluminum, and plastic and is easy to apply using a three-step process that consists of base coat, mid-coat color and top coat.

- Features EZ Touch® Fan Spray Nozzle
- Easy three-step process
- Creates a unique, color-shifting effect
- Dry to touch in 30 Minutes / Handle in 1 Hour
- Use on automotive and motorcycle accessories

OMNI-PAK® FILL ONE AEROSOL FILLING STATIONS

Fill-One is a revolutionary aerosol filling system that delivers perfectly-blended aerosols without cleaning. Let's face it, nobody likes cleaning, especially messy aerosol filling machines. The Fill-One Aerosol Filling System fills cans through the aerosol can cap, which reduces waste, eliminates clean-up, and leaves a permanent color indicator on the outside of the cap.

- Seconds to fill with no loss of paint product
- Compact system about the size of a coffee maker
- Save money by eliminating costly labor and cleaning solvent

B10001000 Fill-One Machine

OMNI-PAK® FILL-ONE CANS

Omni-Pak® Fill-One Cans come with the specialized filling cap that allow for clean-free aerosol can filling.

- Seconds to fill with no loss of paint product
